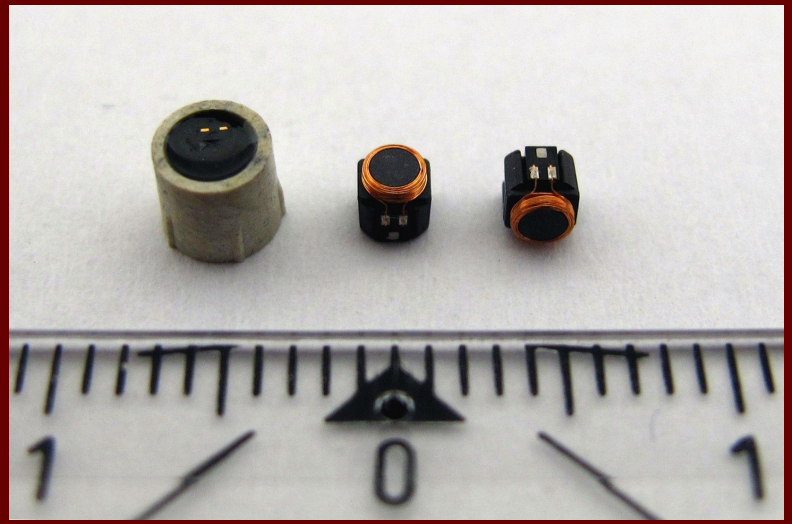
RFID: An Introduction and Demo

What is it?



- Radio-Frequency IDentification
- Tags hold information, readers get it with radio waves

But why tho??

But why tho??

Establishing a drug track-and-trace system
Improved inventory control and management
. More efficiently tracking individual drug usage
7. Near real-time reporting
8. Applicable for other regular drugs and to prevent counterfeiting
入庫、出貨
・開閉式讀取
・資料上傳衛生署系統
CSL
CONVERGENCE SYSTEMS LIMITED

Privacy Concerns

- Tags can be read silently and at a distance (“skimming”)
- If tags never come out of purchased products, they become SpyMachines™
- Human-embedded chips
